

## FOUNDRY SRS Foundry Plaster

### Block mould foundry plaster

**SRS FOUNDRY PLASTER™** is a foundry plaster for casting aluminium using a reclaimable pattern in wood or silicone rubber and has been used for many years by leading European foundries.

- SRS FOUNDRY PLASTER™ contains only the purist closely graded raw materials to give utmost consistency in addition to high green and fired strengths. The plaster can be adjusted to suit individual customer requirements
- Complete quality control tests on setting times, flow and dimensional accuracy ensure trouble free castings from batch to batch. A full Certificate of Conformity is available for every delivery
- SRS FOUNDRY PLASTER™ gives an excellent surface finish with NO mould breakdown of surface defects reducing fettling costs after casting Ideal for thin walled intricate pieces impossible to produce by other methods
- SRS FOUNDRY PLASTER™ cools slowly after casting promoting a uniformity of structure and mechanical properties in the cast pieces
